be exported to Japan in the current season. Export quantities to USA cannot be ascertained at this stage.

(c) In case of Japan six varieties of mangoes have been approved by the Quarantine Authority of Japan. These are Alphonso & kesar (grown in Maharashtra & Gujarat), Banganpalli (grown in Andhra Pradesh), Langra, Chausa and Mallika (grown in Uttar Prades, Bihar and West Bengal). In case of USA, there is no variety specific quarantine restriction and all commercial varieties can be exported to USA after irradiation.

(d) It is difficult to estimate the foreign exchange earning of export of mangoes to Japan and United States of America at this stage.

(e) and (f) Department of Agriculture and Cooperation has launched a Centrally Sponsored Scheme of "National Horticulture Mission" with effect from 2005-06, which includes assistance to farmers for producing quality planting materials and capacity building plan involving training to farmers. Under Quality Development and Assurance Programme, measures have been taken to provide incentives and to create awareness on quality produce for exporters/producers by Agricultural and Processed Food Product Export Development Authority (APEDA). APEDA is also implementing various schemes to provide financial assistance for development of infrastructure, quality production, transport assistance, research and marketing.

Fisheries harbours on Gujarat coast
